

Product Description

Ultramax Exterior is a self-priming paint designed for exterior walls and soffits, offering superior protection against the elements. Available in white, strong, and ultra-deep bases, it provides a low sheen or satin finish that enhances the look of your exterior surfaces while resisting weathering, UV damage, and moisture. Ideal for both residential and commercial applications.

Directions for use

Apply as the first or second coat on clean, dry exterior walls and soffits. Use a tip size of 517 for spray application or a suitable roller for larger surfaces. Ensure surface is prepared and free of contaminants before application. Perfect for long-lasting exterior finishes.
