

Product Description

Ultramax Roof is a self-priming roof paint designed to protect and enhance the appearance of roofs. Available in white, ultra-deep, and strong bases, it provides a durable satin finish that resists weathering, UV rays, and extreme temperatures. Perfect for metal, concrete, and tile roofs, Ultramax Roof offers long-lasting protection while maintaining a clean, attractive look for years.

Directions for use

Apply as the first or second coat on prepared roof surfaces. Use a tip size of 517 for spray application or a roller for larger areas. Ensure surface is clean, dry, and free of contaminants before applying. Ideal for metal, concrete, and tile roofing.

Primer may be required for some roofs depending on condition
