

Rustshield Zinc Primer SB

Anti corrosive high solid zinc primer for colorsteel roofs

SHIELDCOAT

High Performance Paint and Coating Systems

Product Description

Rustshield Zinc Primer SB is a premium solvent-based high-solids primer designed to provide anti-corrosive protection for Colorsteel roofs. Specifically formulated for zinc-coated surfaces, it prevents rust, corrosion, and bleed-through, ensuring a long-lasting, smooth finish. Its superior adhesion properties make it ideal for preparing Colorsteel roofs for topcoats while offering excellent durability and weather resistance.

Directions for use

Apply as the first coat on clean, dry, and prepared Colorsteel or zinc-coated roofs. Use a tip size of 517 for spray application or a suitable roller for even coverage. Ensure the surface is free of contaminants before use. Ideal for preventing bleed-through and providing a strong base for further coatings.
